If you're an undergraduate student, what year are you?

Are you a graduate student?

Home Address:

City/State:

ZIP:

Phone:

Email:

What are your areas of interest that relate to Optics?

Are you a member of any optics and/or engineering associations or organizations? If so, which ones and what are your roles with those associations or organizations?

What would you use the \$1,000 scholarship for?

What other information would you like the selection committee to consider about you while reviewing your application and comparing it to others?

In addition to this application, please include PDFs of a cover letter, your resume, your transcript and at least two letters of recommendation.

I have answered the questions above to the best of my ability and all of the information is accurate. If I am chosen for the \$1,000 scholarship, I give the Michael Pate Optical Sciences Memorial Scholarship Foundation permission to contact, interview and publish my comments in promotional and capital campaigns.
